SUMMARY

Technical Project Manager with 5+ years leading enterprise cloud migrations, SAP integrations, and data platform initiatives, driving $3M+ in cost savings and efficiency gains through cross-functional leadership. Combines PM rigor with hands-on technical fluency in SQL and Databricks to bridge business and engineering teams and translate complex requirements into delivery.

EDUCATION

University of Illinois Springfield, IL

Master of Science (M.S.) - Management Information Systems Aug 2021 – Dec 2023
IT Certificate - Project Management

Illinois State University Normal, IL

Bachelor of Science (B.S.) – Industrial Technology Jan 2016 – May 2019

WORK EXPERIENCE

Adidas – 40hrs/week Portland, OR

Technical Project Manager *June 2024 - Present*

- Led cross-functional SAP enablement project to activate wholesale distribution capabilities for 250K+ soccer balls in support of the World Cup, ensuring on-time readiness for wholesale partners.
- Kicked off an Agentic AI initiative for Supply Chain, aligning tech and business stakeholders to design a human-in-the-loop solution, including process flowcharting, timeline development, and executive presentations.
- Supervise and coach project managers, providing performance feedback to enhance productivity and professional growth.
- Led cross-functional engineers to migrate 700+ users from a legacy SQL database to a Databricks Lakehouse platform, driving 95% adoption across North America.
- Queried and validated data directly in SQL and Databricks to troubleshoot migration issues and verify accuracy, applying an analytical background to ask the right technical questions and bridge business and engineering teams.
- Led a team of 10+ engineers in the end-to-end development and launch of a local manufacturing application replacing a 30-year system, avoiding $2M reinvestment in outdated technology.
- Led the procurement and vendor negotiation for a telecom contract for 2,000+ employees, securing $1.5M in cost savings.
- Implemented PMI best practices for the data team to manage scope, cost, time, risk, and improve project quality, resulting in 90% on-time project completion rate.
- Led the UAT for a 3PL SAP integration project, developing test plan strategies and coordinating 20+ teams, achieving a 99% defect closure rate and ensuring zero operational disruptions at go-live.

Assistant Technical Project Manager *Nov 2022 – June 2024*

- Managed 15+ engineers through cloud infrastructure migration, resulting in annual cost savings of $200K.
- Directed cross functional business teams and SAP developers through the change management of SAP functionalities for B2B platform to effectively drive project delivery.
- Facilitated stakeholder collaboration, improving clarity in requirements, budgets, and roadmaps, reducing rework by 20%.

Technology Analyst *Aug 2021 - Nov 2022*

- Fostered strong relationships with vendors and customers, ensuring clear communication and addressing issues promptly through root cause analysis, resulting in a 95% issue resolution rate.
- Facilitated process improvement across 70+ systems, enabling smoother road mapping and phased migrations.

- Delivered automation solutions eliminating 22 manual processes and saved 19,000 labor hours and $950K in business value.

BMO Financial Group – 40hrs/week Chicago, IL

Technology Analyst *Jun 2019 - Aug 2021*

- Led system requirements, process redesign, and QA testing, increasing user satisfaction by 25% and cutting workflow bottlenecks by 30%.
- Managed a $1.5M annual budget and cross-functional project planning, reducing overspending by 10% and achieving a 95% customer satisfaction rate.
